# CHANGING THE GAME IN MARINE CARE

*“Navigate the world of marine care with confidence”*

At The Salt Wash Company, we're not just offering products; we're delivering a commitment to superior marine care. Our range of meticulously crafted solutions is designed to redefine the standards of excellence in marine maintenance. From the gleaming finish of our Marine Wash to the powerful performance of our Engine Flush, each product reflects our dedication to innovation and sustainability.

We believe that care for the environments that we play in is as important as the care for the gear we use to play. Our products are eco-friendly, biodegradable, and recyclable. Easy to use, our wash systems are uncomplicated and deliver on expectation by effectively removing salt residues and leaving nothing but a clean and streak free finish behind.

# KEEPING IT SIMPLE

When it comes to cleaning products, it's important to use ones that are safe for both ourselves and the environment.

Our range of solutions are eco-friendly or 'Green', and are designed to clean effectively without causing harm to our planet or our health.

All The Salt Wash Company Solutions are:

- Non-Toxic
- Eco-Friendly
- Biodegradable
- Include no Phosphates
- Safe to Use on All Surfaces

**OUR BRAND IS  
SYNONYMOUS WITH  
QUALITY, INNOVATION,  
AND A PASSION FOR  
PRESERVING THE BEAUTY  
OF OUR OCEANS.**

# ESSENTIAL SOLUTIONS

## MARINE WASH

The ultimate wash solution. Our marine wash is a premium salt remover leaving you with a clean and shiny surface - washing away salt and scale whilst forming a protective film to inhibit corrosion.

Designed for the maintenance of a wide range of vehicles, from jet skis and cars, to dirt bikes, boats, 4WDs, and even coastal homes. Our marine wash is safe on all surfaces and effectively shifts dirt, salt, and scale.

Available in both 1L and 5L volumes.

Paired with our Foaming Spray Gun and Engine Flush Attachment, revolutionize your cleaning routine with these versatile tools.

Our Foaming Spray Gun applies solutions evenly and thoroughly, ensuring maximum coverage and effectiveness.

Our Engine Flush Attachment can be used with either engine mufflers or through the engine flush port for versatility.

Both connect to a standard garden hose.

# FLUSHING ENGINES

Our engine flush keeps your engine in top condition - removing salt deposits whilst forming a protective film to inhibit corrosion.

Designed to dissolve deposits and safeguard vital components, it's the key to enhancing your engines longevity, reliability and a smoother, more efficient marine journey.

Available in 1L and 5L volumes.

# SERIOUS ABOUT SUSTAINABILITY

As advocates for eco-friendly boating, we take pride in our commitment to sustainable practices. Our products are crafted with the environment in mind, ensuring that your marine care routine aligns with a greater responsibility towards our precious waters.

The emphasis here is developing the safest product formulations possible. Environmentally friendly products that are made from sustainable materials and are biodegradable, meaning they break down naturally over time without causing harm to the environment.

Our partnered chemists here in New Zealand have access to a large range of sustainably sourced raw materials. These products are also produced in a way that minimizes their impact on the environment during their lifecycle.

**100% NZ MADE · 100% RECYCLED · 100% RECYCLABLE**

# REUSABLE AND RECYCLABLE

Packaging is one of the greatest factors impacting the environment. Our 5L bottles are made from 100% recycled material, making them second-life plastics. No new plastic is created to make these! Because of this, each production run has its own unique colour tone influenced by the plastics used in the batch, which is why our bottle colours vary.

All the packaging used with our products is minimal and 100% recyclable. Our labels are also made to be easily removed for recycling.

## **SAFE AND RELIABLE**

Many cleaning products ultimately end up in waterways. Our formulations have low aquatic toxicity levels and are non eco-toxic to aquatic life, which means that they do not have a negative impact on the environment, such as harming wildlife or polluting water sources.

Non-toxic products have a low hazard profile for end users. This means that they are free from harmful chemicals, are not corrosive, flammable or oxidisers. Our solutions use only surfactants which are aerobically biodegradable and any dyes used are approved as food additives.

Products that are safe on all surfaces are gentle enough to be used on a variety of surfaces without causing damage or leaving residue. This makes them versatile and convenient for everyday use.

*With cutting-edge formulations, our products not only elevate performance but also contribute to the longevity of your marine adventures.*

# MARINE CARE

Elevate your Marine Care Regimen with Essential Solutions

**1L MARINE WASH**  
Crafted to lift dirt, combat salt buildup and inhibit corrosion.

**1L ENGINE FLUSH**  
Designed to dissolve deposits and safeguard vital components.

**5L MARINE WASH / ENGINE FLUSH**  
Bulk volume option for both Marine Wash and Engine Flush solutions.

**ENGINE FLUSH ATTACHMENT**  
Easily connected through either engine mufflers or the engine flush port and a standard garden hose.
